

LIST OF PARTICIPANT FROM NANOTWINNING PARTNERS

1. **Mr. Piotr Slezkowski**, Pierre and Marie Curie University and CNRS, France
"Control of anchoring of discotic liquid crystals for understanding of organic electronic devices"
2. **Dr. Gabriele Alberto**, University of Turin, Italy
"Fluorescent hybrid dye-silica nanoparticles: role of the dye structure on the dispersion throughout the silica matrix and overall brightness"
3. **Mr. Ardi Loot**, University of Tartu, Estonia
"Nanoplasmonics and enhanced vibrational spectroscopy : Automatized setup for plasmonic measurements based on prism coupling technique"
4. **Dr. Taavi Repän**, University of Tartu, Estonia
"Numerical simulations of planar metal-dielectric plasmonactive systems"
5. **Dr. Sergei Kopanchuk**, University of Tartu, Estonia
"Application of baculovirus technology for systems biology studies of G Protein-Coupled receptors"
6. **Dr. Valentina Aina**, University of Turin, Italy
"Novel smart bio-nanomaterials for dental and orthopaedic applications: bioactive glasses containing metal nano-particles (NPs) "
